¹ Counties not listed have no reported illnesses for the year 2001

² Cases classified as agricultural are those in which people were exposed to pesticides that had been or were being used to contribute to the production of an agricultural commodity

³ Systemic: Any health effects not limited to the skin and/or eye. Cases involving multiple illness symptom types including systemic symptoms are included in the systemic category.

⁴ Topical: Health effects involving only the eyes and/or skin. This excludes outward physical signs (miosis and lacrimation) related to effects on internal bodily systems. These signs are classified under "Systemic."

⁵ "Def/Pro" indicates that after evaluation, cases were classified as definitely or probably related to pesticide exposure.

⁶ "Pos" indicates that after evaluation, cases were classified as possibly related to pesticide exposure. classified as possibly related to pesticide exposure.
